3. Adding Exceptional site in Java Configuration
<http://srportal.gacl.co.in:80>

The screenshot shows the Java Control Panel window with the Security tab selected. The 'Enable Java content in the browser' checkbox is checked. Under 'Security level for applications not on the Exception Site list', the 'High' radio button is selected. The 'Exception Site List' section contains a redacted area and an 'Edit Site List...' button. A red arrow points from the 'Edit Site List...' button towards the bottom of the page.

4. Internet explorer must present with IE11 or above
5. Delete temporary file and folders and cookies from IE
6. Switch off the Pop up blocker
7. Please add www.gacl.co.in in Compatibility View at below path in Internet Explorer. Press Add button.

8. Install latest version of Mozilla Firefox.
9. Restart the system.
